

SEZ online system with ICES 1.5 system, Importers/Customs Brokers shall file Bills of Entry (BE) with SEZ online system and the SEZ online System would tag the corresponding IGM particulars automatically. After filing of Bill of Entry, a message would be transmitted to ICES 1.5 system for goods removal, along with authorized representative details.

3.3 Importers/Customs Broker have to approach the Proper Officer in Import Noting Section, JNCH and provide the details such as Bill of Entry Number etc., for permitting movement of SEZ cargo from Port to SEZ premises. After verifying the particulars and identity of authorized representatives, as provided by the SEZ online system, the transshipment approval permitting movement of goods is given in the ICES 1.5 system and Transshipment Number would be generated in the ICES 1.5 system and the Bill of Entry would be marked to the Preventive Officer (PO) for actual delivery of goods. The ICES 1.5 system also generates Approval Order in Triplicate, **after approval and they have to be dealt as below:**

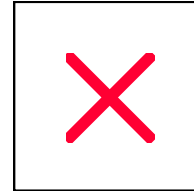

- i. First copy will be retained by the Import Noting Section.
- ii. Second copy will be given to the Custodian responsible for delivery of the Goods.
- iii. Third copy will be handed over by the Importers/CBs to the Authorized Officer,

SEZ, on receipt of goods by Transshipment.

(Present system of manually maintaining the Register to assign TSA number will be done away with, as only the online system generated reference number will be used for the release of the goods).

3.4 Preventive Officers posted in the CFSs/Ports shall verify the “Marks and Numbers” in case of LCL cargo and Seal No., Container No., intactness of Seal and condition of the Containers, in case of FCL cargo before permitting delivery of goods for SEZ and if found in order, he or she shall mark the endorsement of release of goods in ICES 1.5 system. The release of goods message will be sent through ICE GATE to the SEZ Online after the said endorsement entry in the System.

3.5 After cargo reaching the SEZ Unit, re-warehousing message will be sent from SEZ Online System through

E-Helpline

ICEGATE to ICES 1.5 system and upon such receipt of the re-warehousing message ICES 1.5 system will automatically close the corresponding open lines in the IGM if that message is received within 45 days of the removal of goods from the Port/CFS. The present procedure of verification of cargo, on arrival at SEZ by the Authorized Officer of SEZ, assessment, examination, granting Out of Charge (OOC), warehousing by SEZ and issue of re-warehousing certificate to Customs will also continue till the full-fledged implementation of the electronic procedure. After full implementation of electronic procedure, there is no requirement of physical re-warehousing certificate.

4. Arrival of export cargo from SEZ:

4.1 In case of exports, the Shipping Bill (SB) shall be filed by Exporters/ Customs Brokers in the SEZ Online System and then the consignment is self-sealed. The Shipping Bill is assessed and LEO is given by the Authorized Officer of the SEZ Customs in the SEZ Online System.

4.2 Then the SB details including Bill of Lading will be provided by SEZ online to ICES 1.5 system on real time basis. The present procedure of endorsing on hard copy of Shipping Bill by the Authorized Officer will also continue to be followed till full implementation of electronic procedure. After full implementation of electronic procedure, there is no requirement of manual endorsement on hardcopies of Shipping Bill.

4.3 After arrival of FCL SEZ export cargo at Port, the Preventive Officer posted therein shall verify the Seal No., Container No., intactness of Seal and condition of the Containers and shall enter the Shipping Bill No, Date, Container number, Container size and the Seal number in ICES 1.5 system. A message will be sent to SEZ online system through ICEGATE after that entry.

4.4 In case of LCL cargo, the goods shall be taken to the CFS. Upon entry of such goods inside the CFS, the Preventive officer posted therein after verification of “Marks and Numbers”, would enter the basic details such as SB No, date etc., in ICES 1.5 system for acknowledging the receipt of the goods. After the entry by the Preventive Officer posted therein, the ICES 1.5 system generates a message and sends the same to SEZ online system. The goods may be aggregated with other cargo and stuffed in a container. After stuffing of

that cargo, the Preventive Officer will seal the LCL cargo and shall enter the stuffing report for the shipping bill in ICES 1.5 system and then permit movement of the container to the Port for loading on to the vessel.

4.5 It may be noted that arrival message is given on Shipping Bill basis. Therefore, if the Shipping bill contains more than 1 package/ container, then unless all the goods pertaining to that Shipping Bill arrive at Port or CFS, it will not be acknowledged in the system for arrival and will not be sent to SEZ online system.

4.6 After loading of the containers in the vessel, EGM will be filed by the Steamer Agent in the ICES 1.5 application and the same would be shared by ICES with the SEZ online system.

4.7 Like import cargo, for export cargo also, the existing manual procedure along with aforesaid system procedure shall be followed for the time being as the process is in Pilot basis.

5. If the seal is found to be broken, then the manual procedure of Customs clearance would be followed i.e. the seal broken information will be sent to SEZ, irrespective of import or export cargo. If the Authorized Officer requires the goods to be examined in the Port/CFS, the goods will be examined at the Port/CFS. Otherwise, the container will be sent back to SEZ after affixing new seal.

6. Any difficulties faced in the integration of SEZ online with the Customs EDI system may kindly be brought to the notice of the Deputy Commissioner of Customs(EDI), JNCH for necessary action.
